

HOCHSCHULE RHEIN-WAAL

WORKSHOP – GENERAL ASPECTS OF SUSTAINABILITY

WORKSHOP OBJECTIVES

- Understand the concept of sustainability and its importance in engineering.
- Explore the United Nations Sustainable Development Goals (SDGs).
- Analyze the impact of a technical development on specific SDGs.
- Foster teamwork and critical thinking through collaborative activities.

AGENDA

- Introduction to Sustainability (30 minutes)
- Introduction to the Sustainable Development Goals (30 minutes)
- Technical Development Case Study (1 hour)
- Interactive Discussion: Challenges and Solutions (30 minutes)
- Conclusion and Reflection (30 minutes)

INTRODUCTION TO SUSTAINABILITY

Task

Discussion round about importance in Engineering and perception of sustainability in Engineering.

OVERVIEW OF THE SDGS

CASE STUDY

Analyze how the technical development affects the SDGs

- Positive impacts
- Negative impacts
- Long term sustainability considerations
